TOUCHING AFRICA MINISTRIES

Whoever Gets There First ...

PHASE ONE

Ethiopia is considered the gateway to Africa and the freedom to worship has been a constant battle. The atheistic Communist rule was overthrown in 1991 which ended the religious persecution for a season. However, once more freedom is at risk as Muslim nations completely surround Ethiopia. Islam desires to forcibly close the doors to Christianity so they can claim Ethiopia as their stronghold. The Leaders of the Full-Gospel Denomination and Evangelical Church Fellowship told us in December of 2011 ...

"Islam is pushing in and the Christians have designed a plan to push back to secure the borders."

One leader defined for us the urgency of the hour ...

"Whoever gets there first will win the battle for the hearts of the people. We need your help."
